

Team Expenses

Entry Fees Bus Fees Hotel Rooms Robot Production
Marketing Uniforms

Our annual budget is \$76,000. Every student pays \$500 in fees which can be partially deferred through fundraising. The entry fee covers the kit of parts and the Smoky Mountain Regional. The kit of parts contains only a few of the items that we need to build the robot, additional parts and materials must be purchased by the team. We attend a second competition which we feel will greatly help our chances of succeeding at the Championship Event. Please contact us if you have any questions about our budget.

About Us

FIRST Team 3824 began in the year of 2011 in a school closet. We now are currently stationed at the state of the art Manufacturing Demonstration Facility (MDF), which is part of Oak Ridge National Laboratory. We opened the MDF to other FIRST teams in our region so we could share not only our ideas, but our resources as well. We reach out to our community in other ways such as sponsoring local FIRST Lego League (FLL) teams, volunteering our time at various community charities, and reaching out around the globe with Glasses for Ghana. Through our actions as a team we try to display our core values, Gracious Professionalism® and Cooptition®.

What is FIRST?

FIRST Robotics Competition (FRC) is a unique varsity sport of the mind designed to help high-school-aged young people discover how interesting and rewarding the life of engineers and researchers can be.

The FIRST Robotics Competition challenges teams of young people and their mentors to solve a common problem in a six-week time frame using a standard "kit of parts" and a common set of rules. Teams build robots from the parts and enter them in competitions designed by Dean Kamen, Dr. Woodie Flowers, and a committee of engineers and other professionals.

Sponsorship Levels

Hawk- \$100

1 RoHAWKtics T-shirt

Hawk Family- \$150

2 RoHAWKtics T-shirts

Copper- \$500
